

OWI62LCB TYPE

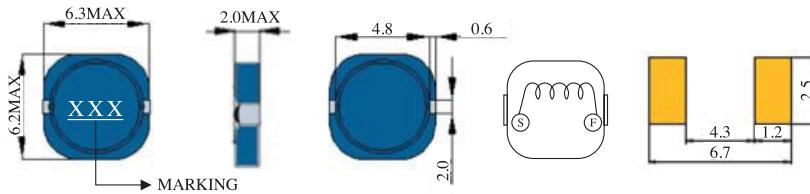

FEATURES

1. LOW Profile (2.0mm max. height) and 6.3mm square. Magnetically shielded and low DC resistance. Suitable for large currents. Available on tape and reel for auto-insertion. Ideal for a variety of DC-DC converter inductor applications.

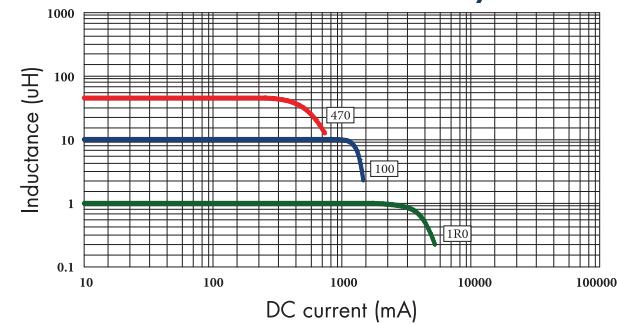

APPLICATIONS

1. Power supply for VTR, OA equipment.
 2. LCD television set, notebook PC.
 3. Portable communication, equipments.
 4. DC/DC converters, etc.

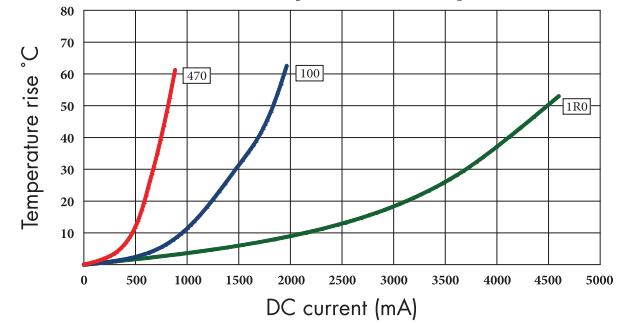

ELECTRICAL CHARACTERISTICS FOR OWI62LCB SERIES

OWI62LCB Inductance decrease by current

OWI62LCB Temperature rise by current

1. Inductance tested at 0.25V. Tolerance of inductance:
1.0uH~8.2uH: $\pm 30\%$ (N) 10uH~47uH: $\pm 20\%$ (M)
 2. DCR test temp. limits 25 °C.
 3. This indicates the value of current when the inductance is 30% lower than its initial value at D.C. superposition or D.C. current.
 4. To load current onto the components under normal ambience, which cause the temp. change as $\Delta t=40^\circ\text{C}$ or more lower current.
 5. Please refer saturated current or the minimum temperature current as standard.
